

Unmatched Performance

Superior Design & Technology

Multifeeder Technology manufactures superior friction feeders and automatic product loaders as a result of our commitment to state-of-the-art technology, continuous research, development, design engineering, and advanced testing.

Standard Features / Benefits

- Easy-to-use display and controls
- Cost effective
- Computer-monitored feeding process
- Maintenance-free brushless servo motor with encoder feedback
- New, patent-pending product separation that virtually eliminates double feeding with no damage to products
- Accurate product count, misfeed, watchdog jam/no product, and multiple product detection
- Standard desktop computer features such as networking, printing, RS-232 interface, etc.

Start with our standard feeder, or upgrade to our complete modular system for increased capacity and mobility. Either way, you can be assured of unmatched performance and the industry's leading support network.
